

The SPOT™ Flex Monochrome is an extreme resolution camera with a wide field of view. Deep pixel wells provide high dynamic range, and binning is supported to increase sensitivity. Cooling and 14-bit digital output reduce noise for low light level imaging. The suggested applications for this camera include widefield monochrome imaging, fluorescence, slide scanning, inspection, and phase contrast studies.

The SPOT Flex includes SPOT Basic software (Windows® and Mac® OS) which features real time image previewing, scale bar addition, report generation, time lapse, and measuring capabilities. IEEE 1394 Firewire™ connectivity enables effortless installation on computers and laptop portability. SPOT Flex cameras come with a 2-year warranty and are supported by an experienced team of imaging specialists.
