Insight 4K UHD,
The New Bench Mark for Presentations...

4K UltraHD the New Standard in 4K Presentations

SPOT's 4K UltraHD system takes you beyond fixed format 4K video presentations. It combines benchmark image quality, easy presentation tools and lets you present both live and captured images.

Outstanding Image Quality...

4K UHD 3840 x 2160

30+ Frames per Second

Live Color Correction

With ICC Color Profiles

Easy Presentation Tools **Show More** and **Save Time**...

Buying a fixed format 4K UltraHD Video system is like buying an Analog Phone in the era of Smart Phones, it doesn't make sense. The SPOT 4K UltraHD Video system provides convenient features to enhance your presentation in ways that Fixed Video System can not.

See the difference...

Live and Captured Images

Move fluidly between Live sample presentation and captured image presentation to show related gross imaging, reference support case images and more. Just right click and select.

Dual Mode Camera

SPOT 4K UHD can quickly convert to a 12.3Mp format to provide you with that little extra FOV you need on some specimens.

Put a Value On It!

Answer attendees questions on distance, area and size. A few clicks sets the calibration and provides the measurement tools.

4K FOV

12.3Mp FOV

Use Your Resolution!!

What good is resolution if you can't use it? Simply roll your mouse wheel to zoom in and pan on your image.
