PathSuite™ Integrated Imaging Environment

The Vision of the Future: Connected Solutions

Building a vision of the future is essential to ensuring that each step supports the final integrated solution. PathSuite™ provides an overarching vision that streamlines workflows for the task at hand, while providing a connected environment that supports user collaboration.

Standardized Interface from a Modular Design

PathSuite’s interface is modular, configurable and designed for IT maintainability and allows up or down features based on each user’s requirements. The result is a standardized interface that supports workflows across the clinical setting, ensuring a seamless transition between imaging tasks.
