

Anatomic Pathology Imaging Environment

SPOT provides
your Anatomic
Pathology Lab an
imaging environment
**Designed
for Productivity!**

SPOT Pathology Environment

SPOT provides a cost effective pathology work environment that brings certainty to your decisions while saving you time and getting you home on schedule.

We achieve this by supporting each of the pathology work tasks with hardware and software that is optimized for your work flow.

SPOT Systems | Value

- Increased needle biopsy and intraoperative consult reimbursements.
- Streamlined work flows for gross tissue mapping, microscopic examination and tumor board presentations.
- Enhanced professionalism from superior quality images in your reports, publications and telepathology conferences.
- Enhanced collaboration from easy-to-use, interactive telepathology interfaces.
- Uptime assurance provided by modular plug and play components supported by in-field and on-line support staff.
- Scalable from stand-alone instruments to fully integrated and interconnected enterprise solutions.

Routine Consults

PathSuite ensures a rich collaborative consult allowing colleagues to easily clarify orientation, discuss dissection and verify margins.

Increase Consults

Increasing intraoperative and needle biopsy adequacy consultations provide savings for the organization and the physician by eliminating unreimbursed secondary procedures and increasing patient satisfaction. Pathologists and Pathologist Assistants benefit from the increased efficiency of providing their consults virtually, avoiding the unproductive trip otherwise required.

Professional Documentation

Professional documentation is the foundation of quality assurance and process improvement, as well as the basis of how you are perceived by your patients, referring physicians and legal establishment.

Easy to Implement

SPOT Imaging has developed turnkey solutions with configuration options to support your facility's unique hardware and software infrastructure. The result is quick installation and optimized performance.
